SPORT PREMIUM EXPENDITURE 2018/2019

The Sport Premium is funding designed to help primary schools improve the quality of the PE and physical activities they offer their pupils.

Schools must spend the funding to improve the quality of PE activities, but they are free to choose the best of way using of the money. Funding is based on the number of 7-11 year old pupils attending the school.

In 2018 – 2019 we have been allocated a total of approximately £ 13,957 Sport Premium funds. We will use this to develop our existing offer and to expand the range of sports that children participate in.

Commando Joe

£2,700

In the past year we have used funding to maintain our use of Commando Joe activity teaching, which has been very popular with children. The before and after school clubs run alongside the sessions were accessed by a number of children who have not previously been involved in physical activities in school. The methodology of the Commando Joe teaching closely mirrors our school values.

Staff have benefited from the support and training they received and we are now able to bring the teaching in-house. We will purchase 'Commando Joe in a Box' which provides us with the resources and training to continue this popular teaching. This initiative will free up funding to develop our sports offer across school.

Broxtowe Active Schools

£3,000

This year we have bought into the Broxtowe Active Schools partnership and will work closely with them to broaden our sports offer across school. Via their involvement we will receive the following benefits:

- Participation in a wider range of tournaments and competitions
- Training for Play leaders to support active play outside and particularly to ensure children are accessing games made possible by our recently acquired playground markings
- Professionally led interventions for children identified as being reluctant participants in physical education

- Sourcing of links to local providers of expert tuition in a range of less common sports

Play Leaders

We will support the work of Play Leaders by purchasing a range of lunchtime equipment to promote active play. Purchases will be made in consultation with the Play Leaders and the School Council

Access to Locally Sustainable Sports £8,297 (to be itemised once plans finalised)

We have previously identified in a school survey that a large proportion of children in school already participate regularly in sports outside school, including football, swimming, dance, karate, gymnastics, rugby and cricket.

We plan to use the BAS to help us build links with a variety of providers of less common sports. We will offer children the chance to participate in sports they may not have tried before with the proviso that it must be possible for them to continue the sport in the wider local area. Many of these will involve off site activities and we aim to make use of local nationally accredited sports venues such as the Nottingham Tennis Centre, the Nottingham Ice Arena and the Holme Pierrepont National Watersports Centre. We also aim to build links with fencing, archery and climbing centres.
